---

**Ever wondered what a river looks like from a ducks-eye point of view? Ever thought about if you'd dare to drink river water? Ever been curious about what rivers really sound like?**

Throughout 2023, MA Design students from Goldsmiths University have been exploring some of these questions (and more) in relation to some of Lewisham's rivers. Come along to this fun, family-friendly showcase of their work at Ladywell Fields to find out what they've been up to and get involved in some riverside

experiments.

Activities include:

- Building and testing 'duck cams' to explore the Ravensbourne River
- Make your own tiles to explore your memories and stories of rivers
- Listen to the sounds of the river
- Take part in a Chinese tea ceremony
- Join a boat launch from the riverbank
- Develop a puppet show about hidden rivers

All are welcome, activities are suitable for children and their parents/carers. No need to book, just come along and get involved.
