

Collaging and Recording Workshops

Join us for two days of collaging and recording at Goldsmiths University.

These workshops will be used to create visual, audio and promotional content for Red Ribbon and Deptford People's Heritage Museum.

We'll be collaging with photos from the Red Ribbon Blanket Tour, fabrics, textiles, paints, thread and other materials significant to Red Ribbon, and we will also be recording personal stories about the seven locations on the Red Ribbon tour.
